## FINAL CALL FOR REGISTRATION

---

### 1<sup>ST</sup> MEDITERRANEAN SUMMER SCHOOL FOR SUSTAINABLE DEVELOPMENT AND BIOECONOMY

---

**JULY 9-12, 2019 THESSALONIKI GREECE**

#### The major aim of this summer school is:

to bring together young people and tutors from the Academia, Research, Industry and Stakeholders from the Mediterranean area and the Balkans.

Professionals, young researchers and students (Postgraduate level and above) will have the opportunity to present their interests and activities related to Sustainability and Bioeconomy in their countries and Institutions. Pre-graduate students will be accepted as attendants.

We are expecting the contribution of 40 people and the expected benefits are: (a) widening of knowledge in the hot area of Sustainable Development and one of its instruments, the Bioeconomy; (b) to show of the regional character of Mediterranean and Balkan; (c) to network in a dynamic way and undertake common activity and projects; (d) to enjoy the Greek hospitality.

The contributors will receive a confirmation of their attendance signed by the organizers.

The School is a self-funded initiative, and therefore a fee of 170 € (early registration) is required in order to cover local expenses such as the use of facilities, the welcome cocktail on 9<sup>th</sup> July; breakfast, 2 coffee breaks per day and a light lunch for 10<sup>th</sup>, 11<sup>th</sup> and 12<sup>th</sup> of July. We also include a Grill party on Friday 12<sup>th</sup> July in the evening.

A low-cost accommodation (2 beds sharing room, total 40 beds) is also available for a limited number of young people, upon request, based on a priority list. In case you need a single occupancy the room costs 30 €. This amount will be paid locally and get the legal receipt.

Thessaloniki has plenty of Hotels with reasonable prices upon early booking, like Metropolitan hotel ([www.metropolitan.gr](http://www.metropolitan.gr)), Queen Olga Hotel ([www.queenolga.gr](http://www.queenolga.gr)) and many others in the heart of the city. The venue is between the airport and the city of Thessaloniki and easily accessible. Registration and has to be completed by 30.5.2019

Prof. Vorgias born in Piraeus is currently Professor at the Biology Department of the National and Kapodistrian University of Athens. I have finished my PhD Degree in Athens University and my PhD thesis at the University of Heidelberg in Germany. I work for many years in Germany (Max-Planck Institute for Cell Biology, Heidelberg and Biophysical Chemistry in Goettingen and over 7 years staff member at the European Molecular Biology Laboratory Heidelberg and Hamburg). Since 1996 I am in the current position. My group has long lasting experience in cooperating with many groups within Europe as well as USA and Australia in the field of protein-structure-function of various enzymes of biotechnological interest.

The last few years I am actively engaged in the hot field of Bioeconomy and have been involved in many conferences in Europe and working group. The ultimate goal is to establish Bioeconomy Education at the level of graduate and post-graduate level.

I have translated from German to Greek the first book "Bioeconomy for beginners" Springer. Also I am the editor of the Bioeconomy Shaping the Transition to a Sustainable, Biobased Economy, in Greek. Both from Springer. Also the Blue Economy (A report for the Rome Club) from Gunter Pauli has also been translated to Greek to help the community to start understanding the new global situation.
