

PHD SEMINARS SBBA

BEYOND BORDERS: ECOLOGICAL DYNAMICS, IMPACT AND MANAGEMENT OF INVASIVE SPECIES

23 FEBBRAIO 2024, 14:00-18:00

AULA DE FILIPPI, VIA ACCADEMIA ALBERTINA 13, TORINO

CHAIRMEN: PROF. LUCA PIETRO CASACCI, PROF. SANDRO BERTOLINO

14:00-14:40

Dr. Valentina La Morgia (30' talk+10'), *Researcher at ISPRA*
Alien invaders unveiled: legislation, implementation challenges, and the scientific duty in managing invasive species

14:40-15:20

Dr. Dario Capizzi (30' talk+10'), *Researcher at Regione Lazio, Area protezione e gestione della biodiversità*
Twenty-five years of rat eradications on Italian islands: successes, challenges and perspectives

15:20-15:40

Dr. Nicole Sebesta (15' talk+5'), *Research fellow at DBIOS BIO/03*
Let it burn: Management of an invasive fern in Everglades National Park

15:40-16:00

Coffee break HomeMade

Partecipa anche tu portando qualcosa!

16:00-16:20

Marta Zoppi (15' talk+5'), *PhD student SBBA - Tutor Prof. Francesca Bona*
Ecological research on invasive species in rivers: examples from diatoms and aquatic plants

16:20-17:00

Dr. Simone Lioy (30' talk+10'), *Researcher at Regione Piemonte - Direzione Agricoltura e Cibo, Settore fitosanitario e Servizi tecnico-scientifici*
Invasive insects in Piedmont and their impacts on biodiversity and agroecosystems

17:00-17:20

Dr. Simone Guareschi (15' talk+5'), *Research fellow at DBIOS BIO/05*
Lessons from the past: Investigating long-term biological invasions in freshwater ecosystems

17:00-17:20

Stefano Brignone (15' talk+5'), *PhD student Sustnet - Tutor Prof. Enrico Ferrero*
European catfish (*Silurus glanis* L.) ecology and management in northern Italy: new scientific approaches from LIFE Predator project
