

CYBO WEBI NARS

25 Jan 2022 – 17 May 2022

Online event via Teams

When PhD students and post-docs meet, that's when CYBO takes shape!

CYBO (Conference of Young Botanists) is a conference from young researchers, for young researchers.

We want to bring together PhD students and post-docs, creating an opportunity for dialogue and networking tailored for early career scientists in a multidisciplinary environment.

The conference will kick off with a series of satellite webinars starting from January 2022, and will culminate with the in-person meeting on 9 – 10 February 2023 in Bozen (Italy).

25 Jan 2022, 10:00

Fruit Traits, Diversification Rates, and the Evolution of Tropical Rain Forest Diversity

Renske Onstein, German Centre for Integrative Biodiversity Research (iDiv) Halle-Jena-Leipzig

08 Feb 2022, 10:00

The Role of Sexual Selection on Plant Speciation: A Whole Field to Xplore?

Clement Lafon-Placette, Department of Botany, Charles University, Prague

15 Feb 2022, 10:00

Unveiling Plant Networks and Their Role in Biodiversity Maintenance

Gianalberto Losapio, University of Lausanne

01 Mar 2022, 10:00

Vegetation of the Cloud Forest in Taiwan

David Zeleny, National Taiwan University

8 Mar 2022, 10:00

The Importance of Local Adaptation and Phenotypic Plasticity to Understand Populations' Sensitivity to Climate Change Across Tree Species Ranges

Marta Benito Garzon, INRAE BIO-GECO, Bordeaux

15 Mar 2022, 10:00

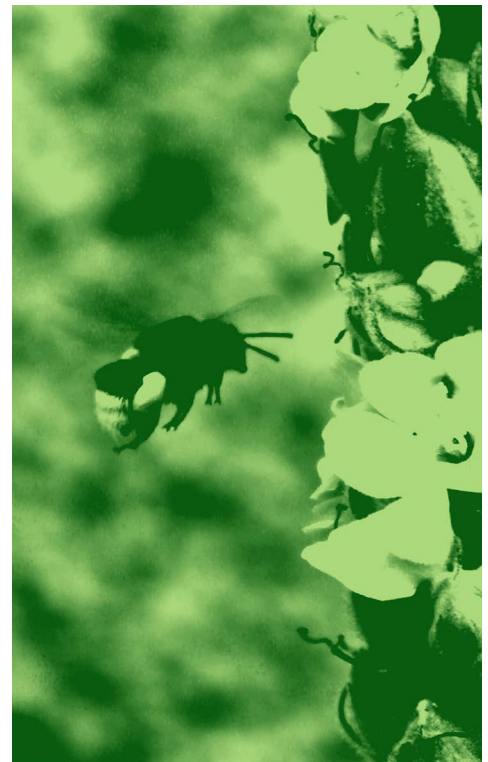

The Biogeography of Useful Plants: Reconciling Biodiversity and Humanity

Samuel Pironon, Royal Botanical Gardens, Kew

04 Apr 22, 16:00

Evolution in Primroses: From Reproductive Biology to Comparative Genomics

Elena Conti, Department of Systematic and Evolutionary Botany, University of Zurich

26 Apr 22, 10:00

The Map of Biodiversity Mapping

Marco Malavasi, Czech University of Life Sciences Prague (CULS)

03 May 22, 10:00

Biodiversity Erosion in European Medicinal Plants

Spyros Theodoridis, Senckenberg Biodiversity and Climate Research Centre

09 May 22, 14:00

An Introduction to Distribution Models in Ecology and Conservation

Luca Santini, Department of Biology and Biotechnologies "Charles Darwin", Sapienza University

17 May 22, 14:00

The Importance of Brazilian Grassy Ecosystems and their Ecology

Alessandra Fidelis, Universidade Estadual Paulista
